Call for Participation in
ACM Student Research Competition

The 19th International Conference on Parallel Architectures and Compilation Techniques –
PACT 2010
September 11-15, 2010
Vienna, Austria

The Conference on Parallel Architectures and Compilation Techniques (PACT) invites
submissions of high-quality posters for the ACM Student Research Competition (SRC).
Sponsored by ACM and Microsoft Research, the SRC is a forum for undergraduates and
graduate students to share their research results, exchange ideas, and improve their
communication skills while competing for prizes.

Important Dates
Deadline for Submission: July 17, 2010
Notification of Acceptance: July 25, 2010

All participants must submit the following:

- A draft version of the poster, which should also include author names, affiliations, and the
  name of the academic advisor. The poster should be scaled down to be printable on A4
  paper (210mmx297mm) and should be submitted in PDF format. The poster may be
  accompanied by explanatory text (submitted in plain text or PDF format). The poster plus
  additional text should be in English and should not exceed 800 words. They should
  describe the research problem, motivation and background, techniques and results. They
  should emphasize the novelty and unique contributions of the work explicitly.

- To be eligible for the ACM Student Research Competition, the poster must be authored
  solely by a student, and the student must be an ACM student member. Students
  graduating in summer 2010 are eligible to participate. Please indicate whether you are an
  undergraduate or graduate student.

Please submit this information by Email to pact2010@gmail.com.

Students accepted to participate in the SRC are entitled to a travel grant (up to $500) to help
cover travel expenses. The top 3 undergraduate and graduate winners will receive the
following prizes:

- Monetary prizes of $500, $300, and $200 (USD), respectively.
- An award medal and a two-year complimentary ACM membership with a subscription to
  ACM's Digital Library.
- An invitation to participate in the SRC Grand Finals. The top three Grand Finalists receive
  an additional $500, $300, and $200 respectively and a handsomely framed Grand Finalist
certificate. They are invited to ACM's annual Awards Banquet.

The SRC consists of two rounds: a poster session and a presentation session. A panel of judges
will select a number of finalists from the poster session, who will be invited to the presentation
session at PACT’2010. The evaluation will be based on the quality of both visual and oral
presentation, the research methods, and the significance of contribution.
