20th euroForth conference on the Forth Programming Language and Forth Processors invites you to participate in the annual get-together of the European Forth Community from

Friday, Nov. 19th 2004 until Sunday, Nov. 21st at Dagstuhl Castle, Germany with the traditional 4th day as an option until Monday.

This years motto:

Stack Based Micro- and Nano-Kernels - Forth's Role in Systems-On-A-Chip

We will be inviting a keynote speaker from the silicon industry.

As always, the conference is open to all Forth related topics:

Forth compilation techniques, advances in platform independence, stack based architectures, compilation techniques for stack based architectures, real-time and embedded systems solutions ...

You can contribute by presenting a Paper (20 min), by presenting a Poster, or by hosting a Workshop. If you mail (euro4th@send.de) your paper (< 15 pages) by Nov. 11th **in PDF format** it will be included in the conference handouts, this is also the deadline for workshop requests. An abstract and your registration is needed by Nov 1st.

And, as always, spontaneous contributions will be given ample space and time.

A limited number of students may participate at a reduced rate.

The venue: http://www.dagstuhl.de/index.en.html

Latest conferenc info: http://dec.bournemouth.ac.uk/forth/euro/index.html

I hope to see your there :)

Klaus Schleisiek
