Daily ETAPS

The Newsletter of the European Joint Conferences
on Theory and Practice of Software, ETAPS 2006

Welcome to ETAPS 2006

The ETAPS Team welcomes those joining us today
to ETAPS'06, the primary European forum for aca-
demic and industrial researchers working on topics
related to Software Science. Best wishes for an en-
joyable stay at ETAPS'06.

Last Minute Changes

The WITS programme is extended for Sunday:
David Sands gives a keynote talk at 2:00 PM. The
sessions after his talk are rearranged. The IFIP
WG 1.7 meeting starts at 5:30 PM. You can find
the up-to-date programme at the entrance to the
lecture room.

Joint Workshops Pre-Conference Dinner

This Sunday evening a Joint Workshops Pre-
Conference Dinner will be held. The dinner will
take place at the historic restaurant *Piaristenkeller*,
Piaristengasse 45, 1080 Vienna, 7:30 PM.

Getting there: The fastest way to get there is by
public transportation. From the ETAPS location
go on foot to Karlsplatz. From Karlsplatz take
Underground U2 (direction Schottentor) to station

Rathaus. Proceed to street 'Josefstädter Straße'
and walk three blocks. Turn right into Piaristen-
gasse (see solid line in picture).

For those who want to be guided to the dinner lo-
cation: **Meeting time** is **6:45 PM** at the regis-
tration desk.

What to do in Vienna

Sightseeing

Visitors have no problems finding their way around
Vienna. The medieval centre forms the heart of
the city: officially the *first district.* Any sightsee-
ing tour should begin in this historical 2-sq-km city
centre. Ideally, you should go on foot, as the streets
are largely traffic free.

The city centre is circled by
Ring Boulevard which is 4 kilo-
metres long. The magnificent
architecture of *Ring Boulevard*
can also be viewed from the No. 1 or 2 trams; one
going clockwise, the other counter clockwise. *Ring
Boulevard* was constructed 1857. The magnificent
road was erected on free space, which emerged after
tearing down the former city walls, glacis, and mil-
itary enforcements protecting the city centre, to-
day's first district ('Innere Stadt'). Ring boulevard
was generously planned, leaving sufficient space for
a shaded avenue and monumental buildings like
Hofburg, Austrian Parliament, State Opera House,
Museum of Fine Arts, the first public astronomical
observatory Urania, and Vienna university among
others.

Museums

The *Albertina Graphic Arts
Collection* is the largest and
most important graphic collec-
tion in the world. It owns
about 60.000 drawings and
about a million graphic repro-
ductions, like Albrecht Dürer's
famous "Rabbit" (1502). You

will find works by Leonardo da Vinci, Michelan-
gelo Buonarroti, Rembrandt van Rijn, Peter Paul

Rubens, Eugène Delacroix, Edouard Manet and Paul Cézanne. 20th century Austrian artists like Egon Schiele, Gustav Klimt or Oskar Kokoschka. Location: first district, Albertinaplatz 1.

At Vienna's *Museum of Fine Arts* you will admire paintings by Rubens, Rembrandt, Vermeer, Dürer, Raphael, Tiziano and Velásquez, as well as the most comprehensive collection of Bruegel's paintings in the world. Location: first district, Maria-Theresien-Platz.
